

Natural Gas for the Next Generation

Imagine the World in 2030

ENERGAZ, together with the Romanian Federation of Petrol and Gas, organizes the essay contest *Write the Future of Energy* on the online platform Romanian Gas. The contest is open to *all Romanian students* - all levels and all fields.

The contest starts on **April 10th** and will end in six weeks on **May 22nd**. Participants will have to choose *one of three subjects* and the best essay will bring its writer the **grand prize of 1,200 Euro**. There will also be a **500 Euro** award for the essay with the most online votes.

We, the Romanian Gas Team, encourage you to be agents of positive change and to express your ideas regarding the role of natural gas in Romania's sustainable development until the year 2030, in the context of the New Green European Pact.

- Ion Popescu, President of Romanian Gas

Choose one of the following essay subjects:

1. The Economic, Geostrategic and Social Role of the Natural Gas Sector in Romania's Sustainable Development Until 2030
2. The Future of Energy in Romania - With Reduced Carbon Print and Accessible
3. Innovation in the Energy Sector through Natural Gas - Romania in 2030
